Art Unit: 1755

The reissue oath/declaration filed with this application is defective (see 37 CFR 1.175 and MPEP § 1414) because of the following:

The reissue oath/declaration must comply with every requirement of 37 C.F.R. 1.63 as well as the requirements of 37 C.F.R. 1.175(a)(2) and 1.175(b)(1). A substitute reissue declaration is required. The *substitute* reissue declaration filed fails to comply with 37 CFR 1.63 (a) (3) in that it does not include the residence, post office address or citizenship of each inventor and fails to comply with 37 CFR 1.63 (a) (4) in that it does not explicitly state whether the inventors are sole or joint

Claims 1-29, 31-60 are rejected as being based upon a defective reissue declaration under 35 U.S.C. 251 as set forth above. See 37 CFR 1.175.

The nature of the defect(s) in the declaration is set forth in the discussion above in this Office action.

The original patent, or an affidavit or declaration as to loss or inaccessibility of the original patent, must be received before this reissue application can be allowed. See 37 CFR 1.178. A response to this action without such will be held non-responsive.

The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground

Art Unit: 1755

provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

Claims 33-60 are provisionally rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 50 and 51 of copending Application No. 09/287664. Although the conflicting claims are not identical, they are not patentably distinct from each other. Claims 50 and 51 of 09/287664 teach the product by a process comprising oxidizing similar metal oxide precursors and similar accelerants, while the instant claims, although different in scope, are drawn to a film comprising metal oxides and the deposition products of an accelerant.

This is a provisional obviousness-type double patenting rejection because the conflicting claims have not in fact been patented. The examiner cannot indicate the allowability of an application until the issue of double patenting is resolved. Furthermore, the examiner could not allow one of a group of applications subject to provisional non-statutory rejections over each other to issue when such applications are subject to interference proceeding because such an application will not issue before conclusion of the interference proceeding. Therefore, a terminal disclaimer must be timely filed in each application before prosecution can proceed further.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

Art Unit: 1755

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
